Time Zones and Daylight Saving Time:

Baja California will be observing Pacific Daylight Time on our next clinic, scheduled for April 13. That makes them the same time as Arizona. So 10:00 on your watch is 10:00 in El Rosario or San Quintin. Remember, most cell phones are set to automatically show the local time.

Pilots need to remember the San Felipe Airport ALWAYS opens at 0800 Arizona time. San Felipe adjust their hours to make this happen.

Two airplanes with a total of 8 providers left from Tucson area airports around 7:00am Friday morning. We had good flying weather with a slight headwind on the 1 hour and 40 minute trip to San Felipe, our Mexican airport of entry.

After clearing in and Steve getting his Multi-Entry permit for his airplane, we headed for the airstrip in San Quintin. We arrived there around 9:15 local time. I was pleased to see the Dodge van parked at the airport meaning it had been repaired. So we grabbed it and one of the Chrysler vans and made the 25 minute drive to El Rosario. Arriving there at about 10:30 we found a lot of people waiting for the clinic to open.

The working women and a favorite patient

Monica immediately got everyone organized and took up triage herself. Janay worked in Medical with occasional interpretation help from Monica. Karen, Linda, Christina and Dee Dee handled dental.

It's a bit difficult to figure out exactly what Bill or Steve did, but I'm sure it was something necessary.

The clinic ran smoothly without any water or electrical problems. We closed the clinic around 1715 and drove into San Quintin for Street Tacos.

Back at the hotel I ran into Guillermo and paid him for having the van fixed. The total was \$40 US. Not bad for replacing the fuel pump, and the van is running very well (finally).

Saturday, Mar 10, 2018

We met in the lobby at 0700 local time and drove to Mama's Restaurant in El Rosario for breakfast. It's always a good meal there and we were met by Geraldo (Mama's grandson).

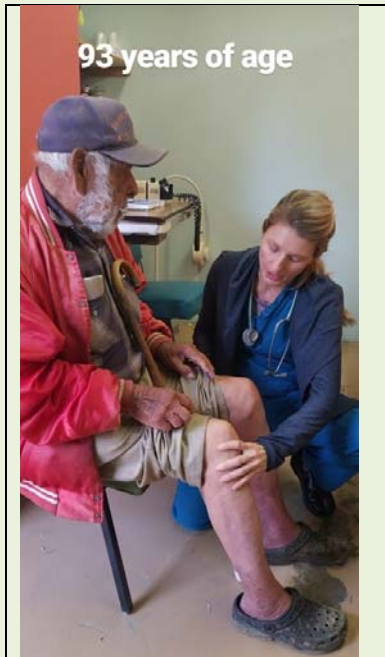

Got the clinic opened at 0945 local time, again with a number of people waiting. Everyone resumed the same jobs. Steve and I took care of the two vans by checking the fluid levels and having the tire pressures checked and filling the vans with fuel. It appears Mexico has again raised the price of auto fuel, which is now about \$4.03 US a gallon. The check engine light in the Dodge van came on, so I'm going to have Guillermo take the van and have it looked at.

We closed the clinic around 5:00. While I stayed with Linda as she was finishing up cleaning the dental area, the rest drove up to the hotel. When Linda and I arrived around 6:30, we learned the dinner decision was to eat at the hotel. Not a bad decision since it had started to rain. We were also entertained by a wedding reception that was going on at the hotel in the room next to the dining room.

Monica and a young patient

Sunday, Mar 11, 2018

Janay and an older patient

We woke up to better weather than we expected. Both airplanes departed around 8:45 for the trip back to Tucson. We had some weather over the mountains along with a few bumps, but with good tailwinds we made the trip in less than 2 hours, arriving at Tucson around 10:30.
