## Time Zones and Daylight Saving Time:

Baja California will be observing Pacific Daylight Time on our next clinic, scheduled for April 14. That makes them the same time as Arizona. So 10:00 on your watch is 10:00 in El Rosario or San Quintin. Remember, most cell phones are set to automatically show the local time.

Pilots need to remember the San Felipe Airport ALWAYS opens at 0800 Arizona time. San Felipe adjust their hours to make this happen.

**First Timers:**

		
Richelle Aquino	Brian Kenneally	Cory Lovett
		
Nicholas Meyer	Stephanie Calles	

We are happy to report another large and successful clinic in El Rosario, Baja, Mexico over the weekend of March 10-12.

We had sixteen members including some news faces. Cory Lovatt from Scottsdale joined us for the first time, as interpreter and he was really good. Especially, when he was not feeling his best this weekend. Cory's interpreting skills took some of the strain off Christine who has often had to try to run between Dental and Medical to interpret.

John Osborne not only flew people down but also speaks Spanish and was able to manage the dental side triage. Kathleen Fellows, who is trying to learn Spanish managed the medical side

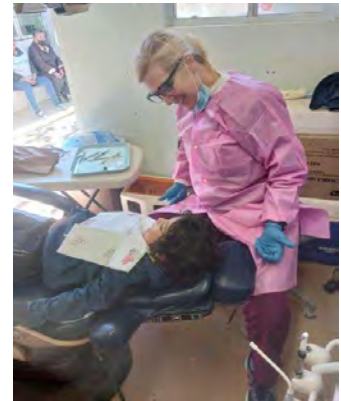

triage (with assistance as needed from John). Maria Kenneally's husband, Brian came along and just like Maria had on her first clinic, pitched right in.

## DENTAL

Norman Don and Nick Meyer kept the dental patients moving through. Nick had some conversations with other Flying Samaritans about the clinic itself and how to manage the client flow.

Hygienists Tricia Conrad and Richelle Aquino kept things moving in our second room with cleanings. Looking very professional in their pink lab. coats. Stephanie Calles, dental assistant some how managed to assist both dentists and keep things moving.

Amazingly enough, by about 15.30 there were no dental patients waiting and no-one had waited over-long for care, though Bob Smith was still in his lab. working wonders on dentures.

## MEDICAL

Medical was steady with Maria seeing 12 patients on Friday and sixteen on Saturday. Gratefully, nothing that we could not manage.

Kathleen, when not triaging, helped in pharmacy dispensing medications and keeping track of what need to be obtained or purchased. 57 Pharmaceuticals were dispensed to patients along with some dressings.

The new ear irrigation set has a spot in pharmacy in a labeled, and easy to see, clear plastic box.

An older lady presented at the medical clinic with a large statis ulcer. She has done a remarkable job of healing said ulcer using honey. We distributed dressing materials so she could continue with her own excellent care.

## OPERATIONS

Chuck Schroll and Bill Hunt addressed some urgent vehicular maintenance, purchasing new tires and getting them installed.

Chuck also cleaned out all the door tracks on the vans and lubricated them. They are much easier to open and close now.

As you can see from the photograph, both these pilots were meticulous in their maintenance record keeping!

Carl and Rod repaired the water main to the building which had separated at the valve. At least, this time we knew where to look for the water main!

## SUNDAY

There was considerable passenger/plane shuffling as some folks left right after clinic on Saturday, due to prior commitments. Others stayed and enjoyed another fabulous meal at the Old Mill.

Sunday morning departures were delayed a bit by a rather shallow but very dense sea fog. By 9am it had lifted enough that everyone was able to take off. By Sunday afternoon, everyone was safely home.

Thank you, everyone for your dedication and service to the residents of El Rosario, Baja, Mexico.
